Download your FREE Congress APP **EuCheMS2016**

And stay connected before, during and after the Congress!

- View all sessions and events information in your mobile device: program, abstracts, speakers...
- Search for individual abstracts, sessions, speakers, exhibitors and sponsors
- Get all notifications and updates
- Plan your stay, social program activities
- Find your way at the venue
- Have your congress contacts at hand
- And much more!

### EYCN Career Days

During the upcoming EuCheMS Chemistry Conference (ECC) in Seville, the EYCN (European Young Chemists' Network) will organise a free four-day career event. These "EYCN Career Days" are filled with lectures and workshops, which are specifically designed by and for young chemists looking ahead to their future career in academia or industry. In order to achieve these series of events, the EYCN strongly collaborated with industry, academic (funding) institutions and publishing authorities. In addition, the event is jointly organized with the GDCh Career Services & RSC Careers.

Review the [program](#).

Please take into consideration that a pre-registration is required for the free CV Clinic! This in order to limit the number of participants for each session and to maximize the advice for your career!

Please register [HERE!](#)

See you soon in Seville!
